Buildings Department

March 2018

Introduction

This Monthly Digest provides statistical data on the output of the Buildings Department which controls private buildings under the Buildings Ordinance. Readers should note carefully the footnotes of each section if they intend to use the data for other purposes.

Building design inevitably undergoes changes from inception to completion of the project period. Certain data appearing in this Digest reflect the major revisions after the first submissions during the course of development.

Definitions

"First submission" refers to plans for a building project which is first submitted to the Building Authority for approval.

"Gross floor area" means the area contained within the external walls of the building measured at each floor level, including any floor below the level of the ground, excludes any floor space that the Building Authority is satisfied is constructed or intended to be used solely for parking motor vehicles, loading or unloading of motor vehicles or occupied solely by machinery or equipment for any lift, air-conditioning or heating system or any similar service.

"Major revision" refers to building plans which have been so extensively revised that they must be fundamentally reassessed.

"Usable floor area" means the aggregate of the areas of the floor or floors in a storey or building excluding any staircases, public circulation space, lift landings, lavatories, water-closets, kitchens, and any space occupied by machinery for any lift, air-conditioning system or similar service provided for the building.

In general, "Unauthorised building works" are

- Any additions and alterations inside the buildings, and building works outside the building without the prior approval and consent of the Building Authority;
- Small-scale building works that are designated as minor works, but did not follow the simplified requirements of the Minor Works Control System under the Buildings Ordinance (Cap.123); or
- Any addition and alteration works that were carried out inside a building not involving the structure of the building, but do not comply with the building standards laid down in the Buildings Ordinance and allied regulations.

Units of Measurements

All floor areas are measured in square metres.

All cost figures are quoted in Hong Kong dollar.

* Refer to Table 5.1 for details. The first figure in parentheses denotes order(s) for demolition of single storey village house/squatter hut while the second figure denotes order(s) for demolition of bamboo scaffold attached to the external walls of a premises. Details on demolition of bamboo scaffold will not be provided in Table 5.1.

∫ These figures refer to the notices served under section 105 of the Public Health and Municipal Services Ordinance, Cap. 132 for the removal of dangerous or abandoned signboards. Orders for the removal of unauthorised signboards may also be served under section 24 of the Buildings Ordinance, Cap. 123.

△ Revised as from Jan 2014:-

1. New columns "Prescribed inspection/repair for buildings" and "Prescribed inspection/repair for windows" are added to show notices issued under the Mandatory Building Inspection Scheme and the Mandatory Window Inspection Scheme respectively.
