

1. Practice Notes

1.1 With the passage of time a number of old Practice Notes have already been revised, while others have been incorporated in new Notes or otherwise cancelled as being no longer really necessary or entirely applicable to current circumstances. Would you therefore please note that the numbered Practice Notes included in the list below still remain generally in force, while those not listed are now cancelled:-

1.2 Many of the Practice Notes still listed may be thought to have little relevance now but their retention for the time being appears advisable pending the introduction of new or further revised Notes, the general review of which is continuing.

2. Old Series Circular Letters

2.1 A review of the old series 'Circular Letters to Authorised Architects' has shown that they are for the most part obsolete or already incorporated into Practice Notes and therefore all remaining Letters in that series are now cancelled with the exception of the following :- Nos 7, 45(1) and 48.

2.2 These last remaining Letters are at present being updated and re-written for incorporation in the current series of Practice Notes.
