2. You should note that in this latest review the year prefix has been deleted as this is considered to be no longer relevant. Also, it should be borne in mind that the deletion of some practice notes in this review does not necessarily mean a change in policy, but more that the information given at that time is now established practice.

3. With the passage of time some of the references in the existing Practice Notes are now no longer entirely applicable. Although such instances are usually quite obvious, revised editions will be sent to you from time to time.
