

31 May 2022

To: All Qualified Persons

Dear Sir/Madam,

New Mobile Application – “WIN SAFE” for Qualified Person (QP) Registration

The Buildings Department has developed a new mobile application – “WIN SAFE” in facilitating property owners to appoint QPs for early compliance of the Mandatory Window Inspection Scheme (MWIS) notices so as to ensure building safety. Its main functions include:

- (i) Enabling owners to search for QPs according to individual needs;
- (ii) Providing a chatroom for owners and QPs to discuss window inspection services;
- (iii) Facilitating the public to make enquiries to BD in relation to MWIS notices; and
- (iv) Collecting service and cost data for compiling statistics for public’s reference.

“WIN SAFE” is now ready for QP registration. Please download “WIN SAFE” from the App Store/Google Play/AppGallery or simply scan the QR codes¹ below to register your account and provide the required information. With sufficient number of QPs registered in “WIN SAFE”, we plan to launch this mobile application for public use in the third quarter of 2022.

Thank you for your support to make “WIN SAFE” a popular and useful tool under the MWIS.

Yours faithfully,

(NG Pelene)

Assistant Director/Mandatory Building Inspection
for Director of Buildings.

¹ “WIN SAFE” is applicable to mobile devices running on iOS and Android platforms.
