Dear Sir/Madam,

**Repeal of PNAP APP-103
Structures On Grade on Newly Reclaimed Land**

This is to announce that PNAP APP-103 is repealed with immediate effect in view of the following circumstances:

- (a) the Code of Practice for Foundations 2017 has provided relevant guidelines on the design and construction of structures on grade on newly reclaimed land; and
- (b) the details as shown in Appendix A of PNAP APP-103 are no longer applicable as the preventive measures against migration of soil due to potential soil settlement under raft pile cap should be considered on a case-by-case basis.

Yours faithfully,

(HO Hon-kit, Humphrey)
Assistant Director/New Buildings 2
for Building Authority
