

Identification of Registered Contractors

The Building Authority (BA) maintains separate registers of registered general building contractors, registered specialist contractors and registered minor works contractors. Any person who wishes to check whether a contractor or his authorized signatory is registered with the BA may inspect the relevant registers at the Buildings Department (BD) or at the BD website (<http://www.bd.gov.hk>).

2. To facilitate the public in identifying appropriate registered contractors to be appointed for the carrying out of various categories of building works or street works, and various classes, types or items of minor works, your cooperation is requested to display clearly and conspicuously your registration numbers and relevant details on your publicity materials, e.g. advertisements, pamphlets, brochures and business cards, etc. In addition, registered Class III minor works contractors (individual) and Qualified Persons are encouraged to produce the respective registration card and QP card for gaining access to private premises for carrying out minor works and inspecting windows, supervising or carrying out repair works under the Mandatory Window Inspection Scheme respectively.

3. Please do not use BD's logo in any of your publicity materials as BD's logo is protected under the Copyright Ordinance (Cap. 528) and the Government of the Hong Kong Special Administrative Region is the owner of such copyright. Any reproduction, copying, adaptation, distribution, dissemination, uploading, posting, modification, publication, transmission of the logo or using the logo for any commercial purpose without the authorisation of the BD is strictly prohibited. The Department may take appropriate actions against anyone using BD's logo without authorisation.
