

Code of Practice for Site Supervision 2009

The Buildings Department (BD) has set up a Technical Committee (TC) to, among others, collect and consider the views and feedback from the building industry arising from the use of the Code of Practice for Site Supervision 2009 (the Code). Taking into account the advice of the TC, BD has amended the Code from time to time.

Academic Courses Recognised as Acceptable Qualifications

2. The required professional / academic qualifications and experience of technically competent persons (TCP) are set out in paragraphs 8.18 to 8.24 of the Code. In the past years, some courses organised by local institutes or universities have also been accepted as equivalent academic qualifications under the Code. As a ready reference to the practitioners, a list showing the latest courses which are recognised as acceptable academic qualifications for TCP T1 to T3 under the Code is set out in Appendix A.

Repeal of Corresponding Recognition

3. The corresponding recognition for TCP as set out in Appendix X of the Code which is based on the membership of particular professional institutions is repealed via the issue of the amendments to the Code on 8 May 2015.

4. Members of these professional institutions previously accepted to practise as TCPs may continue to practise as TCPs subject to evidence demonstrating the previous recognition of their TCP qualifications being provided to BD upon the submission of the supervision plans.

5. A similar practice note has been issued to authorized persons, registered structural engineers and registered geotechnical engineers.
