

<b>Central Data Bank</b> <b>List of Building Materials</b>
---

**A. General**

Department:	Buildings
Type of building material:	Concrete admixtures
Applications:	For modifying the workability, rate of stiffening or hardening of concrete

**B. Acceptance criteria****Testing standards:**

Testing of concrete admixtures should be in accordance with BS 5075 or other equivalent standards.

**Conditions of Acceptance:**

- Concrete admixtures shall comply with Building (Construction) Regulation 53 and should satisfy BS 5075.
- Application of a concrete admixture shall be strictly in accordance with the manufacturer's specifications/recommendations.
