

Summary of Decisions of the Building Authority Conference

Case No.	:	BAC 5/2007
Subject Matter	:	Formal appeal against BA's decision to disapprove the A&A plans requiring a glass canopy in the form of covered walkway to be included in GFA
Decision	:	The Conference noted that the covered area was GFA countable under B(P)Reg and that the feature was not covered by PNAPs for exemption. Having taken into account of the advice from the relevant outside departments and having studied the case, the Conference agreed to contest the appeal.
