

Summary of Decisions of the Building Committee
Building Committee I 32/2007 held on 28.8.2007

BCI 1 32/2007

Issue : Site classification for site abutting a private street subject to right of way.

Decision : Having studied the case, the committee agreed that it was premature to consider the site classification and hence reserved the comments on the issue. The committee also requested the AP to clarify the access to the site and EVA provision.
