

**Summary of Decisions of the Building Committee
Building Committee I 47/2016 held on 28.12.2016**

(a) MAI 1 47/2016

Issue : Proposed private street for site classification purpose.

Decision : The committee studied the proposal and had no objection in principle to accept the proposed private pedestrian street as a specified street for the purpose of site classification subject to further justifications.

(b) BCI 1 47/2016

Issue : Exclusion of acoustic canopy and acoustic fins from SC and GFA calculations.

Decision : The committee considered the design and agreed to exclude the acoustic fins from SC and GFA calculations. However, the acoustic canopy should be accountable for SC and GFA calculations.
