

Summary of Decisions of the Building Committee
Building Committee I 39/2019 held on 26.11.2019

(a) BCI 1 39/2019

Issue : Non-provision of service lane.

Decision : The committee noted that there was no existing lane in the vicinity and a lane pattern would unlikely be created in future. Having considered the layouts of the proposed building and the site environs, the committee had no objection to the non-provision of service lane.
