

Summary of Decision of the Building Committee
Building Committee I 27/2021 held on 3.8.2021

(a) BCI 1 27/2021

Issue : Non-provision of service lane.

Decision : The committee noted that there was no existing lane in the vicinity and a lane pattern would unlikely be created in future. Having considered the layouts of the proposed building and the site environment, the committee had no objection to the non-provision of service lane.
