

**Summary of Decisions of the Building Committee
Building Committee II 37/2008 held on 18.11.2008**

(a) BCII 1 37/2008

Issue : Non-provision of a kitchen for senior citizen units of a residential development.

Decision : While the units were intended for residence of the senior citizens who were not recommended to cook with naked flame, the committee noted that the proposed pantries with heating appliances were akin to open kitchen. Hence, the committee requested the AP to provide further justifications on his design concept and operation of the proposed pantries.
