

Summary of Decisions of the Building Committee
Building Committee II 5/2018 held on 13.3.2018

(a) BCII 1 5/2018

Issue : PPE situated in a building which is used for purposes other than PPE.

Decision : Having regard to site circumstances and noting that the proposed PPE would comply with the requirements stipulated in the FS Code and had independent means of escape and adequate fire separation from the remaining parts of the building, the committee agreed to grant a modification to permit the PPE use to co-exist with other non-PPE uses in the development.
