

To enhance communication with property management agents and other persons in the property industry, the Buildings Department (BD) publishes and sends this quarterly newsletter to all stakeholders and hopefully through them, this newsletter will reach the hands of building owners.

Merry Christmas & Happy New Year

2018 will be a meaningful year for the BD as it marks our 25th anniversary. It has been our goal to make the built environment safe and healthy. Without public participation, however, it is impossible to accomplish the mission. To bring the building safety messages to more members of the general public, we will widen the use of digital communication channels. You may access this BSQ Extra by scanning the QR Code below to experience the Augmented Reality (AR) effect. Our warmest season's greetings to you and your family!

Board Game Play cum Building Information Day

The "Board Game Play cum Building Information Day" is a key event in the BD's 25th Anniversary activities, tentatively scheduled to be held in September 2018. Local secondary schools are being invited to create board games. Students will find it educational and entertaining. In addition to promoting original designs, we are also encouraging students to incorporate the STEM element in their works as a way to put their classroom knowledge into practice. Please stay tuned to the BD's website (www.bd.gov.hk) and Facebook Page (www.facebook.com/BDBSEXPRESS) for further details.

BD E-Learning Centre

Instead of setting up a traditional classroom, the BD has developed the new E-Learning Centre, making it easier for the general public to acquire building safety knowledge anywhere, anytime. The first course available is the Online Building Safety Certificate Course. Please check out the link below to enjoy a new learning experience.
