Monthly Digest

Buildings Department

July 2013

Introduction

This Monthly Digest provides statistical data on the output of the Buildings Department which controls private buildings under the Buildings Ordinance. Readers should note carefully the footnotes of each section if they intend to use the data for other purposes.

Building design inevitably undergoes changes from inception to completion of the project period. Certain data appearing in this Digest reflect the major revisions after the first submissions during the course of development.

Definitions

“First submission” refers to plans for a building project which is first submitted to the Building Authority for approval.

“Gross floor area” means the area contained within the external walls of the building measured at each floor level, including any floor below the level of the ground, excludes any floor space that the Building Authority is satisfied is constructed or intended to be used solely for parking motor vehicles, loading or unloading of motor vehicles or occupied solely by machinery or equipment for any lift, air-conditioning or heating system or any similar service.

“Major revision” refers to building plans which have been so extensively revised that they must be fundamentally reassessed.

“Usable floor area” means the aggregate of the areas of the floor or floors in a storey or building excluding any staircases, public circulation space, lift landings, lavatories, water-closets, kitchens, and any space occupied by machinery for any lift, air-conditioning system or similar service provided for the building.

“Unauthorised building work” means building work which had been carried out without approval and consent of the Building Authority.

Units of Measurements

All floor areas are measured in square metres.

All cost figures are quoted in Hong Kong dollar.

Abbreviations and Symbols

ATD apartment type dwelling.

TTD tenement type dwelling.

NA not available

-- nil or not applicable

Table of Contents

	Page
Section 1 New Buildings	
1.1 Plans processed by the Building Authority	1
1.2 Consent to commence work issued by the Building Authority	2
1.3 Occupation Permits issued by the Building Authority	3
1.4 Approvals of new and major revision building plans	4
1.5 Consent to commence general building and superstructure work	5
1.6 Notification of commencement of general building and superstructure work	6
1.7 Completion of new buildings and alteration & addition work	7
 Section 2 Existing Buildings	
2.1 Reports received about dangerous buildings, hillsides, advertising signs, unauthorised building work and defective drains	8
2.2 Statutory orders issued on dangerous buildings, investigation on buildings defects, hillsides, buried services investigation, advertising signs, unauthorised building work and defective drains	9
2.3 Advisory letters issued on building defects, unauthorised building work and defective drains	10
2.4 Compliance with statutory orders issued on dangerous buildings, hillsides, investigation on building defects, buried services investigation, advertising signs, unauthorised building work and defective drains	11
2.5 Compliance with advisory letters issued on building defects, unauthorised building work and defective drains	12
 Section 3 Advisory Services	
3.1 Advice to Licensing Authorities	13
 Section 4 Prosecutions	
4.1 Prosecutions instigated under the Buildings Ordinance and Fire Safety (Commercial Premises) Ordinance	14
 Section 5 Detailed Information	
5.1 Buildings for which Building Authority has issued demolition orders	15
5.2 Buildings for which Building Authority has issued demolition consent	16
5.3 New buildings for which plans have been approved	17
5.4 New buildings for which consent to commence work has been given	20
5.5 New buildings for which notification of commencement of general building and superstructure work has been received	24
5.6 Completed new buildings for which occupation permits have been issued	27

* Refer to Table 5.1 for details. The figure in parentheses denotes single storey village house/squatter hut. When there are two figures in parenthesis, the first figure denotes single storey village house/squatter hut while the second figure denotes order(s) for demolition of bamboo scaffold attached to the external walls of a premises. Details for the latter order(s) will not be provided in Table 5.1.

Revised as from June 2003:-

1. The "Building and drainage repairs" column to the right of the "Building repairs" column reporting on the combined orders for the repair of both building and drainage defects has been deleted as these orders were no longer served since 1998; and
2. All the figures reported previously under the deleted column since 1998 were for the repair of drainage defects only. These figures have been merged with those for defective drains from industrial source and non-industrial source. The combined figures are now reported in the "Defective drainage repair/investigation" column.

Revised as from June 2003:-

1. Addition of a new column to report on Advisory Letters issued for the repair of building defects as from Jan 2003; and
2. Figures for Advisory Letters issued for the repair of defective drains from industrial source and non industrial source previously reported under separated headings are merged and reported in one column.

Revised as from June 2003:-

The “Building and drainage repairs” column to the right of the “Building repairs” column reporting on compliance with the combined orders for the repair of both building and drainage defects has been deleted as these orders were no longer served since 1998.

* Figures reported previously under the deleted column since 1998 include those for compliance with the combined orders and also those for compliance with orders for drainage repair only. The figures have now been divided according to their nature. Those relating to the compliance with the combined orders have been denoted in the parentheses and included in the total.

The remaining figures for the compliance with orders for drainage repair only have now been merged with those for defective drains from industrial source and non-industrial source. The combined figures are now reported in the “Defective drainage repair/investigation” column.

** Columns for “Hillsides repairs” and “Investigation on building defects” have been swapped to tally with layout of Table 2.2.
